

# GEORGIA Election Security Legislative Objectives

## UnPlug GA's Remotely-Accessible Ballot Marking Device System (BMD)

- **Security grade ballot paper.** Features should include currency grade paper, serialized numerical control, micron printing, blacklight watermarking, a mylar hologram, etc.
- **Hand-marked paper ballots.** Physically disabled voters requiring accommodations are an exception.
- **Publicly-recorded hand counts at each precinct or polling location.**
- **Decentralized and Clean Voter Rolls**
- **NO RANK CHOICE/INSTANT RUNOFF VOTING**

## Bills We Support

**SB 233, B. Jones** - intro 2021 (NEEDS TO BE REINTRODUCED)  
Hand marked paper ballots, all race audits, non-proprietary program

**SB122, K. Kirkpatrick** – heard 2023, **HB426 S. Blackmon** - Rules 2023  
Unseal ballots for Open Records Requests

**HB17, A. Powell** – Rules 2023  
Chain of custody, sealing and sign-off procedures for ballots

**SB226, M. Harbin** – intro 2023  
All ballots must be serialized on security grade paper

**SB221, M. Burns** - heard 2023  
Voter rolls cleaned often, drop boxes deauthorized, citizen election workers. Add transparency for election processes, files, worker IDs.
